WHAT IS P2E?

PATHWAY TO EMPOWERMENT is a journey of transformation that leads to a life of personal significance and professional success. What does that mean for you? The ultimate goal of P2E is to prepare students for employability and life beyond college. Let’s face it, that’s why students pursue a college education in the first place. Every student wants to be prepared for that first job and have the confidence needed to succeed. While students learn and hone the required expertise in one’s chosen career field within their major, P2E augments that foundation with skills employers are looking for such as how to successfully navigate the world of work with finesse. That is what makes P2E an invaluable and unique experience that one can only receive at Lake Erie College.

WHO PARTICIPATES IN P2E?

You! Our goal is to have every student participate in P2E. Some programs are integrated into our curriculum, while others are stand alone offerings. Our Career Services and P2E team will work with each and every student to identify opportunities to engage in the process and to define the steps on their personal roadmap.

HOW IS P2E DEPLOYED?

As the name implies, each student will embark on a personal pathway to empowerment. The journey starts when the student first arrives at LEC as they kick-off their college career. Starting with orientation and experiences tailored for the first year, students will participate in a series of activities geared towards self-discovery and leadership development.

Capitalizing on our small community atmosphere, P2E aims to directly impact every undergraduate student through specific developmental themes each year with corresponding activities. Think of P2E as LEC’s personalized game of “Life,” or rather, “Work-life.” By the time a student reaches senior year, he/she will be prepared for the rigors of the job hunt, skilled at the interview process and have a deeper understanding of personal goals and the tools to achieve them, just to name a few.

WHY P2E?

Surveys tell us that students primarily want to earn a college degree in order to secure higher-paying jobs, employers indicate that too many recent graduates lack the competencies to make immediate contributions in the workplace, and many faculty are motivated by the opportunity to broaden students’ intellectual horizons so that they will become responsible global citizens. This program seeks to address all three of these priorities and functions by guiding students through developmental stages that prepare them incrementally for the rigors of the post-collegiate world intellectually, personally, and professionally.
WHAT’S NEXT?

It all starts when you choose to be a Lake Erie College student. Selecting a college is a challenging task. We feel it is the personalized experiences and differentiated learning opportunities that will make the difference between a good college experience and an exceptional one. P2E is LEC’s Signature Program designed to do just that, ensure that you have an exceptional outcome.

LEC’s faculty and staff are committed to creating an experience that goes beyond the traditional liberal arts offerings and provides you with the foundation you need to succeed in college, career and life.

HIGHLIGHTS INCLUDE:

• Personalized career assessments
• Informational interviews
• Job shadowing
• Strength assessments
• Training on how to leverage strengths to reach your full potential
• Experiential learning opportunities
